

DAWN[®]

PLURIBUS KNIFE & FRESHENER STRIP-TILL ROW UNIT

- Modular Knife Unit Allows for Seasonal Flexibility
- Integrated Pneumatic Down-Pressure System
- Trailing Pneumatic Row Cleaners
- Variety of Fertilizer Options

SPRING OR FALL

Run into wheat straw, bean stubble, corn stalks or green covers. Apply any combination of liquid or dry fertilizers. The Dawn Pluribus Strip-Till unit is the right tool for the job!

Stay well ahead of your planter! Run up to 8mph, with as little as 20hp per row. Plant into a clean, warm, dry, almost conventional strip yet leave all residue on the surface, making you money, not tying up Nitrogen.

Less fuel, time, fertilizer, equipment, and moisture loss. All adding up to more profit in your pocket.

Row unit also available with Hydraulic row unit down-pressure and row cleaners!
