

DAWN®

PLURIBUS

COULTER STRIP-TILL UNIT MODEL 5090

- Trusted and Proven Coulter Design
- Integrated Pneumatic Down-Pressure System
- Trailing Pneumatic Row Cleaners
- Variety of Fertilizer Options

Model #	Description	List Price
5090L 5090R	Pluribus Coulter Strip-Till Unit	\$4900.00
300732	Incorporating Dry Fertilizer Tube	\$110.00
300826L 300826R	Side Banding Liquid Fertilizer Tube	\$115.00

SPRING OR FALL: Run into wheat straw, bean stubble, corn stalks or green covers. Apply any combination of liquid or dry fertilizers. The Dawn Pluribus Strip-Till unit is the right tool for the job!

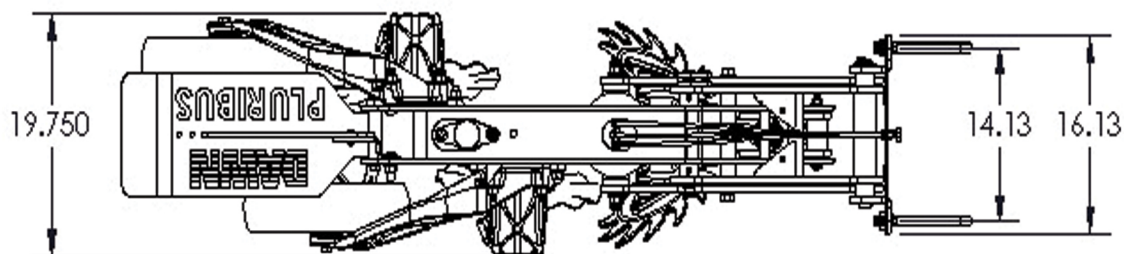

Stay well ahead of your planter! Run up to 10mph, with as little as 15hp per row. Plant into a clean, warm, dry, almost conventional strip yet leave all residue on the surface, making you money, not tying up Nitrogen.

Less fuel, time, fertilizer, equipment, and moisture loss. All adding up to more profit in your pocket.
